

Abortion is nothing less than Murder!

In any law to allow or support abortion is to participate in murder or the abortion. If you do not take a stand and fight against abortion then you become a participant for allowing the abortion or murder of the innocent. Reason what is fair and equal rights of all humans in their procreation? Who gives anyone the right to selfishly hate and to murder and then destroy the human rights in the procreation of others when they are in their most helpless state they can not beg their killers or you for mercy? Who gives anyone the right to destroy the rights of others in the same rights that they had—and now they enjoy human rights as an adult only because they were allowed rights of procreation in their mother's womb? If you were conceived normal, you run your race and **you won your race to be conceived** and to be procreated in your mother's womb and no one has killed you. The unborn love life the same as you and they also want to live in whatever their state, so what right do you have to kill any other human in their beginning of their procreation? When the unborn cause no death to others so who has made you a selfish god of hate for the unborn to make life or death decisions to hate and to kill the most helpless in their early or late stage of their procreation?
