**Praeses and the Times Release High School Football App Times FNL**

**SHREVEPORT, LOUISIANA – September 13, 2016** - Praeses, a national leader in mobile application and software development, announced today that its Business Technologies Division has, in conjunction with the Shreveport Times, published Times FNL, an innovative mobile app covering high school football throughout Northwest Louisiana. The free application, available in the App Store by searching Times FNL, allows users to tweet and receive live scores and updates from the games, play prep fantasy football, and vote for MVP of the week.

According to Rob Parker, Director of Praeses Business Technologies, “The launch of this app has been a huge success so far. It offers a one-of-a-kind experience for area high school football fans. There is no more waiting for score updates from your favorite teams; all area scores are available on your phone in near real time.”

In addition to live updates, the app allows users to engage with local teams and compete with one another through weekly prep fantasy football games involving local players. Entries are due Thursdays at 7:00 pm and prizes are awarded weekly. Finally, fans can support their favorite teams and players by placing their vote for player of the week.

Download Times FNL, powered by Praeses, today in the app store by searching for Times FNL. Follow the games and send updates using the hashtag #TimesFNL.

**About Praeses**
