Ronald L. Poles, Principal

Fall 2016

To Whom It May Concern,

Jefferson School recently had the opportunity to share in the Weather Tour Assembly presented by John Marshall. Our students have described it as "the best assembly ever – cool and so interesting". It is rare that an assembly delivers what you hope, from the advertisement and/or recommendations from other administrators. The Weather Tour met and exceeded all expectations.

John Marshall's presentation was interesting, informative and engaging, as well as matching the Next Generation Science Standards and the New Jersey Student Learning Standards for Science. John couldn't have been more accommodating to our student needs, presenting to both our primary and intermediate grades material that was appropriate for their grade level.

All at Jefferson School were fascinated and enthralled with an outstanding assembly. I would highly recommend the presentation.

Sincerely,

Ron Poles
