

Crest Physical Therapy COVID-19 Screening

Please read before entering facility.

1. Do you have a fever (>100.4), cough, shortness of breath and/or GI symptoms (abdominal pain, diarrhea and/or worsening nausea)?

If you answered YES to #1, please do not enter. Call your PCP or seek care as appropriate

2. Have you had a family member with these symptoms in the past 14 days?
3. Have you had exposure or contact with a sick individual? Most importantly flu, RSV, COVID-19?
4. Have you or someone you've been had contact with traveled internationally, been on a cruise, or traveled anywhere with a COVID breakout (ex: NY or Bergen County)?

If you answered YES to 2, 3 or 4 please do not enter and call our office to see if you may be a candidate for an E-Visit or Telehealth.

Please stay well,

Staff of Crest Physical Therapy

Our West Long Branch and Hazlet offices are open for one on one patient care and our staff is taking extra safety precautions - in addition to our increased protocols for cleaning of the entire facility and promotion of preventive measures such as hand-washing, we are also staggering appointments and screening all patients that arrive to the facility prior to treatment.
