

June 2018

Garage Apron Concrete Sealing -

The aggregate aprons outside of the garage doors will be getting sealed over the next few weeks. One 'Hammerhead' per week is the current plan, and a sign will be posted at the beginning of the week at the entrance to the effected driveway. Please keep an eye out for this, and do not drive in/out of your garage during the times noted on the sign.

Any questions, please contact Ben Weaver with ASI.

Thank You!
