Largest USA Think Tank for Special Needs Children
P2i is led and supported by a “who’s who” list of thought leaders and influencers in pediatrics and chronic diseases (not exhaustive)

**Forum Institute**
- Dave Humphrey, Esq.
  - President, Forum Institute
  - Northwest Autism Foundation (Board)
  - Autism Treatment Network and Medical Academy of Pediatric Special Needs (Co-Founder)
- John DeHoney
  - NW Autism Foundation (Executive Director)
  - Prior: CA Economic Development Commission (Executive Director)
- Gleason Eakin
  - NW Autism Foundation & Autism Treatment Network (Co-founder)

**P2i Board of Advisors**
- Hani K Atrash
  - HRSA (Director of Division of Healthy Start and Perinatal Services)
- Janis Biermann
  - March of Dimes (SVP of Education and Health Promotion)
- Jeanne Ann Conry
  - Environmental Health Leadership Foundation (President)
  - Prior: ACOG (President)
  - Prior: Kaiser (Assistant Physician-in-Chief)
- Robert Hendren
  - Autism & Neurodevelopment Program at UCSF (Director)
  - Prior: AACAP (President)
  - Prior: MIND Institute (Executive Director)

**Center of Excellence**
- Dr. Jose Cordero
  - UGA (Pediatrician, Epidemiologist)
  - Prior: HHS (Assistant Surgeon General)
  - Prior: CDC (Director of National Center on Birth Defects and Developmental Disabilities)
- Lee Grossman
  - Advance Enterprises (President and CEO)
  - Prior: Autism Society, Autism Society of America Foundation (President)

**Virtual Campus**
- Steve Mulhall
  - Intercall (Director of Sales)
A Parable:

There once was a village overlooking a beautiful river.

The residents who lived here began noticing increasing numbers of drowning children caught in the river’s swift current and so went to work inventing ever more elaborate technologies to resuscitate them.

So preoccupied were these heroic villagers with rescue and treatment that they never thought to look upstream to see who was pushing the victims in.

P2i is a walk up that river.
New Model

Chronic Disease is primarily caused by Environment

60% of Autism is caused by toxins
Children in the U.S. are at high risk for chronic disease
This may be a result of increasing exposures to environmental toxicants.

Approximately 16,000 premature births per year in the U.S. are attributable to air pollution.\(^4\)

Children in 4 million U.S. households may be exposed to high levels of lead.\(^5\)

60% of acute respiratory infections in children worldwide are related to environmental conditions.\(^6\)

Genetics were once thought to contribute 90% to autism, but are now thought to only contribute 41-56% in boys and 13-16% in girls.

The role of environmental factors in autism is greater than previously thought.\(^7\)

Air pollution contributes to 600,000 deaths worldwide in children under 5 years old.\(^8\)

Cancers 2nd leading cause of death in children Up 1% a year
Current pregnancy and infancy care models have produced a 40% chance of experiencing poor pregnancy outcomes.

- 10 - 50%¹ miscarriages (35%)
- 12% preterm births
- 25% developmental disabilities
- 60% healthy

¹As many as 50% of pregnancies may end in miscarriage. We don’t know the exact number because most happen before a woman knows she’s pregnant.” – March of Dimes

“Women who took supplements prior to pregnancy were 61 percent less likely to have a child diagnosed with autism, compared with moms who didn't take supplements, the researchers found.”
Three STEP PROGRAM

1. Reduce your environment intake
2. Add Food and Supplements to naturally and safely remove toxins
3. Increase levels of Glutathione

MEASURE THE TOXINS every 6 months
Inexpensive - Easy – Non-Invasive Testing
Urine, Saliva and Single Drop of Blood

Chemical Toxicity Test
485 Chemical Toxin Tests to measure Body Burden
Non Invasive - Dry Blood Spot or Dry Urine Spot

Heavy Metal Test
9 Heavy Metals
Lead, Mercury, Arsenic, and Cadmium etc.
Non Invasive - Dry Blood Spot or Dry Urine Spot

Nutritional Deficiency
20 test Vitamin and Mineral Comprehensive test for deficiencies
Non Invasive - Dry Blood Spot or Dry Urine Spot
P2i Global™ 3D Virtual Training
P2i Virtual Campus
150,000 people of day
FREE On-line Interactive P2i Training Books for Parents
Virtual 3D P2i China Discussion on your Computer

Conference will be designed to resemble a real-world conference bringing together chat, virtual reality, 3D graphics, and live video.

P2i Global is designed to give attendees sitting at their computers the feeling of really being there.

This emerging technology is now being used by many of the largest global companies to discuss complex business topics with thousands of their participants.
