

WHO WE ARE

Moon Rabbit is a socially responsible creative agency that provides branding, advertising & design services to its clients for all platforms.

COMMITMENT MAKES GREAT BRANDS

At Moon Rabbit, we aim to create & nurture great brands for people and organizations that love their products, customers & our planet.

GOOD ENOUGH IS NOT ENOUGH

We believe in strategy, creativity & intelligent design. Smart concepts can grow an organization faster than any layout, colour or typeface.

WE LOVE WHAT WE DO

We enjoy the creative process as much as the end result and aim to do great work for our clients that we cannot wait to show to the next one.

WHAT WE DO

STRATEGY

A well-defined brand strategy forms the foundation for great branding. We take your business strategy & values and add our creative expertise to translate them into an effective brand strategy.

ADVERTISING

Different businesses have different advertising needs. We put ourselves in your shoes to understand your creative needs to effectively target your customers and propel your products and services.

GRAPHIC DESIGN

Intelligent designs stick with customers. We do the thinking for you to create designs that are unique and speak to your customers in a way that you intended them.

BRANDING

One good idea can propel a brand for years. Great brands are memorable and compelling. We work with you to understand & create unique brand personalities that are simple, yet powerful.

DIGITAL

Digital presence is no more a choice, but a key business & brand requirement. We understand what it takes to create great design & content for digital media, whether it's your website, social media or an app.

ILLUSTRATION

Powerful ideas need powerful illustrations and stock images just cannot cut it. We believe in creativity, may it be out of the box, inside the box or if there is a box at all.
