Over 30 years Practice in the Inland Empire

GOLD has been used for thousands of years as a **powerful mind-enhancer,**

As a mental and emotional potion, it can take the place of many of the psychotropic drugs and other antidepressants.

due to the mental clarity and calmness it produces, it

also can relieve the craving for alcohol and other addicting drugs.

GOLD HAS BEEN USED TO TREAT ARTHRITIS CONTINUOUSLY SINCE 1927.

Colloidal Gold is a very subtle, though powerful pain reliever which aids in the treatment of Arthritis and Rheumatism.

Doctors Nilo Cairo and A. Brinckmann wrote a best selling work entitled "Materia Medica", (Sao Paulo, Brazil, 19th edition, 1965), in which Colloidal Gold was listed as the **number one remedy against obesity!**
