

Family Specialist Therapist

Healthy Families PBC is Seeking full time county-wide bi-lingual (Spanish preferred) to provide therapeutic and consultation services as an enhancement to the Healthy Families program to high-risk families with children 0-5 in the home setting. The objective is to identify, assess, triage and develop a treatment approach to address issues such as: substance abuse, depression and domestic violence. The goal is to reduce the compounding risk these bio-psychosocial factors will have on healthy parenting and child development.

Qualifications include:

Licensed Clinical Social Worker (LMHC, LMFT) Required

Minimum three years' in utilizing various clinical modalities; therapeutic approaches that include experience in at least two of the four following clinical areas: Individual treatment for anxiety and maternal depression, family therapy approaches including dyadic work, play therapy.

Comprehensive and strong clinical foundation in attachment theory, trauma, infant/child (0-5) and adult development (including maternal depression)

Experience in home visitation with a background in prevention and intervention services to the 0-5 age population

Knowledge of and sensitivity to service populations, cultural and socioeconomic characteristics

Experience in teaming with staff; including case consultations and providing staff training

Ability to work evening and weekend hours as needed

401k, Medical and Dental Insurance provided. Generous paid vacation and sick time.

EEOC, E-Verify, Level II Background screening.
