

Delivering More **Service**

POSConnect Remote is a secure, compliant EFTPOS cash-out solution that can be installed in a location accessible to patrons so cardholders can process EFTPOS cash out transactions with minimal staff assistance.

POSConnect Simple and Secure Cash-Out Service

EFTPOS Cash-out Solutions

POSConnect now available in compact remote mode

POSConnect Remote is a highly compact, secure and compliant EFTPOS cash-out solution. POSConnect can be installed in a location accessible to both patrons and staff where cardholders can complete EFTPOS cash-out transactions, providing a higher level of service and support to your customers. Staff members simply press a button on the remote to unlock POSConnect for a transaction. The cardholder then selects their cash out amount, completing the transaction on the PINpad before collecting their cash direct from the dispenser.

- Advanced remote infrared technology
- Remote controlled activation with range up to 50 metres from EFTPOS terminal*
- 2 remotes per POSConnect remote terminal (additional remotes available for purchase)
- Up to 10 remotes can be connected to the POSConnect remote terminal

* Environmental conditions may affect maximum range

Config.	Specifications			
Cassettes	Height* (mm)	Width (mm)	Depth (mm)	Weight(kg)
2-3	1385	470	667	300
4	1385	470	667	400

*Measured to top of PC
