# AutoPay® Fast, Secure Cash Management

## Cashier Assist

## Why choose AutoPay Cashier Assist for your venue?

AutoPay Cashier Assist represents uncompromised reliability and quality, providing easy daily reconciliations and fast, secure cash management. It's been developed to protect the gaming float and reduce or prevent shrinkage. Dispensing is automated to meet payout needs, preventing counting errors and enhancing venue and staff security without slowing down customer service. AutoPay incorporates BANKTECH's proprietary software that is intuitive and easy to use for staff. AutoPay can operate 'standalone' or can be connected to your gaming system. AutoPay is fully supported by BANKTECH's 24/7 help desk and in-house national field service teams.

Features	Benefits
Reliability and Support	24/7 help desk and monitoring
	Nationwide field service – 365 days per year
	Tried and tested ATM technology
	Dedicated software development team
Easy to Use	Diagnostics enables quick identification of issues
	Intuitive and easy to use touch screen, staff training is minimal
	Simple to use inputs for denomination breakdowns and dispense
	Advanced reporting capabilities – range of pre-defined reports or design your own
Functionality	Automated replenishment process allowing replenishment to be performed with three key strokes
	Dispense controls settings are configurable to venue requirements
	Multiple dispense options
	Fast dispensing, 2-4 denomination
	Multiple user access levels configurable to different roles and responsibilities
	System Admin Account – full reporting access, replenishment functionality, system diagnostics, log file viewing and user administration
Security	User Account – access to perform manual dispense, diagnostic functions and individual activity reporting
	Secure 24-hour-rated (UL291) safe
	Electronic time-delay lock for safe access
	Configurable cash dispense parameters that limit access to cash in armed hold up situations while still providing access under normal operating conditions
	Time-delay limit on cash dispensed and on the number of transactions – a value where greater than a predetermined amount calls a time delay before dispense occurs

### GAMING HOST CONTROLLED

Approved interfaces to Aristocrat, eBet, Global Gaming and IGT gaming systems

### Accessories

Time Delay Lock
