CS-2100RFi

High Production Portioning

FoodTools
Industry Leaders in Portion Control
CS-2100RFi

Average Speed:
Up to 360 Cakes per Hour

Function:
This high-production model is capable of cutting a variety of frozen round products. The machine features dual product holders and fully automatic product positioning, indexing, and roll fed Divider Inserts. Using Divider Insert rolls improves efficiency by removing the time it takes to refill sheet fed Divider Insert holders during cutting cycles. Portions will all be a consistent size no matter who is operating the machine. A simple switch can change from cutting with Divider Inserts to cutting without. This machine is best for bakeries producing 300 or more products per hour.

Benefits
- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion cakes every time
- Use rolls of Divider Inserts for a professional display and high efficiency
- Reliable and durable equipment backed by manufacturer's warranty

FoodTools machines are manufactured with heavy duty anodized aluminum, stainless steel, and ultra-high molecular weight plastic. The equipment is designed for complete wash down requirements in production facilities.

Specifications are subject to change and are dependent on the product portioned or additional accessories to standard equipment.
