Premier Energy Services Announces Partnership with Dinamo International W2S Corp

Premier Energy Services and the patented EOR steam generators are partnered with the leading distributor of Oil & Gas equipment in Venezuela

Atlanta, Georgia – June 1, 2016 – Primer Energy Services, a leading provider of steam technology and solutions, today announced that it is partnering with Dinamo International W2S Corp to provide enhanced customer and equipment support for enhanced oil recovery operations in Venezuela. The two companies have partnered in order to offer unmatched support for the Oil & Gas market in Venezuela where maintenance operations and productivity are crucial to profitable operations.

Premier Energy Services will train the Dinamo sales and service team members on the patented EOR steam generators. The newly developed team will learn to incorporate the advantages of the mobile PE-2025® and PE-2028® as well as the larger skid mounted models. Dinamo recognizes the industry advantages posed by Premier Energy Services' tri-fuel steam generators with unparalleled efficiency, steam quality, and reliability.

"We are excited about the future given the proven capabilities of the two companies, Premier Energy Services and Dinamo, CA. We believe this partnership will produce remarkable results for our customers and two companies for years to come," said Randy Davis, CEO of Premier Energy.

Premier Energy Services recognizes that alternative fuel sources are available to substitute natural gas and oil as power for steam systems. The Company is focused on delivering clients best practice steam solutions to address growing concerns of increased operating costs and availability of oil and natural gas fuel sources.

###
