

Dear Students and Patrons:

We are very excited to be reopening our business on May 1 after a 5-week hiatus. We will be doing everything we can to keep our customers and staff safe.

- 1. Please do not enter the studio if you are experiencing any flu-like symptoms.**
- 2. For the time being, we ask that all people wear a mask in the studio. We have sterile masks for people who do not bring one.**
- 3. We also ask that all people entering our studio wash/disinfect their hands. We have hand sanitizer available.**
- 4. Practice social distancing**
- 5. For those who are coming in for a club-fitting appointment we have surgical gloves available that we will ask you to put on.**
- 6. In order to limit the number of people in the studio at one time, simulators will not be available for practice until the pandemic subsides. We also ask that patrons refrain from bringing friends and family members with them. Juniors may bring a parent.**
