

MAKING EVERY CONNECTION COUNT

NETWORKING FUNDAMENTALS

- Network Design & Implementation
- Networking Security & Compliance
- Server Design & Virtualization
- VoIP Phone Systems
- WiFi Designs & Installations

Network Zen is your single source for network design, implementation, security, compliance, server design and visualization, VoIP, and WiFi solutions. Don't waste your time managing multiple vendors when you use our qualified expert team. It's our goal to ensure peace of mind when it comes to your network.

IT MANAGED SERVICES

- Network Monitoring & Security
- Mobile Device Management
- Server Management
- Desktop Management
- SAAS Management
- Managed VoIP

Network Zen is raising the bar on managed IT services! Step away from the old school service providers that overcharge, under deliver, and make your job more stressful. Network Zen sets the NEW industry standard for delivering affordable, innovative, and comprehensive managed services to US warehouses, distributors, healthcare providers, and manufacturers.

ZEN INFRASTRUCTURE

- Office Relocation
- Structured Cabling
- Electrical Installation

Using our office relocation, structured cabling, and electrical services will ensure your facility has the right foundation for long-term success.

STRATEGIC "GURU" CONSULTING

- Strategic Assessment & Guidance
- Warehouse Optimization
- Software Development

Rest easy knowing our "Guru" consulting services will provide strategic assessments and guidance that gets the job done right the first time for your warehouse, distribution, manufacturing or healthcare environment.

PEACE OF MIND SECURITY

- Security Surveillance

Network Zen's certified security gurus will design and install the right solution with our comprehensive listen to understand philosophy.

MOBILITY HARDWARE

- Holistic Worker Mobility

Your team doesn't have time to be experts in mobility hardware like barcode scanners or mobile printers, but Network Zen's got you covered.
