OUR WORK SCOPE IS BROAD, OUR STANDARD IS EXCELLENCE

We began our journey in 2008 with a contract award for the Afghan National Army Literacy Program; we teamed with a large U.S. University for this effort. Soon after that initial success, OT Training Solutions competed and won a \$62M multiyear IDIQ Afghan National Security Forces literacy education contract, where we managed in excess of 1,000 teachers with a small and highly effective management staff. The total student body in Afghanistan exceeded 290,000 students and classes ranged from Grade 1-3 literacy in Dari and Pashto to high school level mathematics and technical subjects.

Today, our broad scope of work ranges from educational program development and delivery, to mentoring battalion and brigade staffs, to training foreign national citizens in conflict zones, to providing trainers, field technicians, instructors, and operators for virtual training devices, to repairing and managing training equipment. OT Training Solutions performs as a prime and as a subcontractor.
