

## HARDWARE MAINTENANCE

For longevity of all products, Oliveri Millworks suggests a maintenance contract to avoid voiding company issued warranty.

*\*\* No abrasives or bleach type products to be used. If inspection determines these products have been used, warranty is void.*

### PRODUCT

Use general maintenance guide for standard hardware.  
Special instructions may be provided for custom hardware.

*\*\*Some finishes may naturally age over time and with use, this is considered completely normal.*

SUGGESTED CLEANING MATERIAL : Silicone Based Lubricant

### FREQUENCY

Every 6 months, each unit should be gone over and all multi-points tested

### CLEANING INSTRUCTIONS

1. Loosen screws on multi-point system
2. Dampen shoot bolts

EXCELLENCE IN THE PALM BEACH TRADITION SINCE 1981
