

MULTIFOS Specifications:

<u>Guaranteed Analysis:</u>	<u>%</u>	<u>Physical Properties:</u>
Phosphorus (P), min	18	Bulk density:
Calcium (Ca), max	34	Approx. 82-85 lbs/cu foot
Calcium (Ca), min	30	Moisture: Approximately 0.6%
Fluorine (F), max	0.18	Color: Brownish-gray
		pH: 6.0

<u>Typical Sieve Analysis: (Tyler)</u>	<u>%</u>
Through 12 mesh, not less than	95
Through 200 mesh, not more than	5

<u>Typical Chemical Analysis*:</u>	<u>%</u>		<u>PPM</u>
Phosphorus	18.20	Manganese	250
Calcium	30.50	Zinc	135
Fluorine	0.15	Molybdenum	5
Iron	0.76	Copper	15
Magnesium	0.27	Cobalt	4
Sodium	4.80	Selenium	<1
Potassium	0.05		

**Analysis of trace elements are approximate only and subject to variation.*

Feed Label Information:

For the purpose of registering products containing MULTIFOS, the terms "tricalcium phosphate" or "defluorinated phosphate" have been accepted in all states as being adequately descriptive.
