BEATTY LUMBER COMPANY
KITCHEN  BATH DESIGN

The experienced designers at Beatty Lumber will help you select the best cabinets for your next design project.

Ready to discuss the right cabinetry for you? Contact our Design Department at 610.710.4088 today to set up an appointment.

Our Design Process

New Cabinet Line-Up

- 1 We start with an initial design consultation in our showroom. This is when we will discuss your needs, budget and preferred design style. We ask you to come prepared with:
 - a. Your design ideas: pictures, magazine cutouts, notes, etc.
 - b. Room dimensions: wall length and the sizes of any windows, doors and other obstructions
 - c. Architectural plans (for new construction), if you have any
 - d. Budgetary range
- 2 Based on the findings of the initial meeting, we will create a design and generate a quote for cabinetry and countertops.
- 3 We typically take a deposit to allow for revisions to the original design, and at this stage, an on-site measurement is taken by the designer.
- 4 If you already have a contractor in mind, we are happy to work closely with them. We prefer to have the contractor on-site at the time of the measure, and have them approve the item list once the order is placed. We do this to make sure your project goes seamlessly!
- 5 After the base cabinets have been set and the appliances have arrived, the counters will be templated to ensure an exact fit. Countertops are typically installed one to two weeks after the template date.
- 6 When the contractor is finished, we will perform a final walk-through to guarantee your satisfaction.

**We look forward to working with you on your next project!

		Quality	Cost	Lead Time (weeks)	Warranty
MANTRA™	www.mantracabinets.com	Good	\$	1-2	5 Years
Mantra cabinetry is our entry-level option, perfect for budget-conscious shoppers or those with a short timeline. This series offers two door styles and limited finishes, enabling a quicker turnaround. A pared-down selection of sizes keeps costs low.					
Schrock	www.schrock.com	Good	\$\$	3-4	Lifetime
Schrock cabinetry is the next level up, offering a bit more flexibility and choice in finish and door styles, yet is still budget-friendly for an entry-level home renovation or new construction. This is a standard overlay cabinet.					
SHOWPLACE CABINETRY™	www.showplacecabinetry.com	Better	\$\$\$	4-5	Lifetime
Showplace cabinetry is a robust, semi-custom line that offers cabinetry in three construction types: inset, full overlay, and frameless. Showplace is employee-owned, and their products are made in South Dakota. The styling options range from ultra-contemporary to traditional – plus everything in between!					
Yorktowne.	www.yorktownecabinetry.com	Better	\$\$\$	6-8	Lifetime
Yorktowne cabinetry, manufactured in the Midwest, is a respected semi-custom brand that makes several kinds of cabinetry in varied construction types: inset, full overlay, and frameless. Their style options vary from traditional to transitional, so every shopper can find something that fits their home.					
Greenfield	www.greenfieldcabinetry.com	Best	\$\$\$\$	6-8	Lifetime
For high-end construction or buyers who are looking for a more unique installation, Greenfield cabinetry offers a fully custom version of the lines mentioned above. Their products are made in West Virginia. There are no limits here: if you can dream it, Greenfield can design and make it!
