

# Help! I can't get into Zoom!

## If you can't get into Zoom, do the following:

1. First, post a message in Google Classroom letting Mrs. Scarff know that you can't get in. This will count towards attendance.
2. Verify that you are logged in to Google Chrome using your Valverde.edu account. Zoom will not let you in if you are not. Go to Google Chrome and click on the circle on the top right. It will show which account you are logged into—make sure it's your school account and NOT your personal account.
3. Double check the Zoom Link and password at the end of this document or in Google Classroom.
4. Sign in to Valverde.edu in Zoom:  
Go to Valverde.zoom.us *or* at the Zoom Sign in Screen choose "SSO Sign In". Enter Valverde in the field that is followed by zoom.us

At this point you will be redirected to the Microsoft Screen to enter your complete email address. Press "next" and then enter your Val Verde password. Try logging in to your meeting.

5. Contact me with your full name and period explaining the problem. Send me a screenshot:
  - A. kscarff@valverde.edu
  - B. Text me: (951) 305-0929
6. I will do my best to post all the Zoom meeting videos later in the day. Watch the video and complete any work assigned that day so you can be marked as *present*.

-----  
Below is the link to our biweekly zoom meetings. You will need to register for each meeting each time as proof of attendance, so you might want to bookmark this link. The password for each class is below the link.
