

COVID PATIENT INSTRUCTIONS:

If you have a positive test, or are in the process of being tested:

STAY HOME!!!

Stay home for at least 10 days or longer if still unwell.
Isolate from other household members if at all possible.

Cover your cough and sneeze.

Wash your hands often.

Avoid sharing personal household items.

Call your provider

- If you are short of breath
- If you can't keep clear liquids down
- If you are unable to urinate
- Call ahead before going to the doctor

Call 911

- If you are having chest pain
- If you are unable to breathe
