

murfreesboro technology
NETWORK. ENGAGE. EVOLVE.

The Murfreesboro Technology Council believes technology is the key to innovation and business opportunity. The Murfreesboro Tech Council gives us the ability to provide educational and networking opportunities to local IT professionals who are seeking growth and share our vision for Murfreesboro's future.

Expanding Business. Connecting Technologists.

Our goal is to unite the IT and business communities of Murfreesboro. Together we can define the future of technology within the city and provide technologists with a community to grow their network and their careers.

In order to accomplish our goals, Murfreesboro Tech Council offers several membership benefits such as monthly meetings and network events, a job board for available local IT jobs, along with email and social media updates of local events and technology news.

Get involved, become a **Sponsor!**
