

Senior .NET API Developer

NYC / East Coast US / Amsterdam / Dublin / Valencia

About CSS

Compliance Solutions Strategies (CSS) is a trusted global RegTech partner that uniquely brings together innovative technology- driven solutions to support financial services firms in navigating a clear and strategic path through the complex and fragmented global regulatory space. Our solutions and services help firms meet regulatory deadlines while optimizing compliance data, operations, and technology. CSS covers a full range of global compliance disciplines spanning fund reporting, transaction reporting, investment monitoring, compliance management, compliance services and managed services with a complementary, centralized approach to the strategic management of regulatory data called RBOR (Regulatory Book of Record). Job Summary

We're looking for a sharp developer with 5 years of solid enterprise experience. The ideal candidate will have a skill for tough puzzles, a talent for communicating complex ideas simply, and a drive to meet high expectations with great software. This is a unique opportunity to work on building a web-based application from scratch using the latest technologies.

Responsibilities

- Collaborate with other developers on refactoring existing WCF services and migrating them into a RESTful API
- Performing coding assignments
- Reviewing code work for accuracy and functionality.
- Creating and implementing design plans
- Analyzing code segments regularly
- Delegating tasks to team members

Requirements

- 5+ years of working experience
- Experience in .NET Framework, .NET Core, package management, and dependency injection
- Working knowledge of React, Redux, or React Natives
- Database experience (SQL Server) and good knowledge in query optimization
- Experience with distributed architectures and REST APIs
- Experience with gRPC APIs is a big plus
- Experience with continuous integration and continuous delivery
- Proficiency at implementing responsive designs using HTML and modern CSS
- Experience supporting and scaling consumer-facing web applications
- Agile/SCRUM Software Development Process experience
