

TRIBAL ISAC

INFORMATION SHARING & ANALYSIS CENTER

Member Benefits

Tribal-ISAC Members achieve numerous benefits across the areas of information sharing and analysis; critical advisories and bulletins; education and training; research developed within the Tribal-ISAC community pertinent to Tribes; benchmarking and analysis of the tribal community and a sounding board for questions and solutions.

The Tribal-ISAC provides a single platform for trusted sharing of security information among the Nation's sovereign Native American and Alaska Native tribes, villages, bands and communities, including their many operations and enterprises. The Tribal-ISAC gives all Members access to greater security resources and opportunity to access funding that would not otherwise be available or provided to individual tribes.

Launched in 2020 and officially formed in 2021, the list of benefits and subsequent capabilities of the Tribal-ISAC are expected to grow quickly and significantly over time. The ability to assist all Members with timely and better access to potential threats and cyber security information to help each Member prevent or mitigate damage from the growing issue of devastating and expensive security and cyber attacks occurring on tribal operations and enterprises is perhaps the greatest single benefit of all.

Direct Member benefits include:

- Secure access to trusted Collaboration Portal and Tribal-ISAC Platform
- Opportunity to receive automated (tribal relevant) threat information feeds daily/weekly
- Access to Tribal-ISAC created webinars and training/education
- Sharing of industry leading practices
- Access to security minded peers from tribes across the nation for collaboration
- Teleconferences and webinars provided by Tribal-ISAC's shared security analyst(s)
- Threat bulletins and advisories
- TribalHub Membership and discounts on all Tribal-ISAC and TribalHub events
- Access to new security resources obtained by Tribal-ISAC through shared funding model
- Access to information received from Tribal-ISAC's federal, State and commercial information sharing partners.
