

## Business Process Management

### Lean Six Sigma

Vistra provides federal clients with Business Process Management (BPM), Lean Six Sigma (LSS), and Continuous Process Improvement (CPI) methods to achieve organizational excellence by removing waste and reducing variations in federal government programs and processes. Always within the context of industry best practices, our BPM, LSS, Theory of Constraints, Business Process Reengineering, and Human-Centered Design are tested, calibrated, and applied across:

- Agile Program and Project Management
- Project Execution
- Strategic Planning
- Performance Management
- Analytics and Data Mining
- Modeling and Simulation
- Development of Measures and Metrics

Vistra’s team of highly-qualified experts with Master Black Belt and LSS certifications meet federal clients’ BPM and LSS requirements by making use of relevant principles and integrating institutional knowledge and experience. Their laser-specific implementation of associated concepts and practices serves to:

- Methodically reduce waste
- Support audits, feasibility studies, and assessments
- Avoid/mitigate costs
- Promote agility
- Improve efficiency

Vistra works proactively to reduce delays and meet or beat all deadlines. We accomplish this by identifying and measuring key performance indicators and administering detailed, exacting BPM and LSS methods to capture, evaluate, and report performance in both broad and specific categories across federal business enterprises to guide our clients in the directions they aim to move.
