

Enso Center - March 2021 Update

I am happy to see COVID numbers improving in our community. This makes it especially important to keep up our efforts to be safe as we move forward. The last thing we want is to slow progress or go backward as we are so close to being able to return to normal workouts.

As the weather improves our safe start outdoor classes are getting to be more and more fun. Our online remote classes are also going well. Participants of both types of classes are making great progress and I want to welcome our new students. We are continually offering new ways to practice the skills that make up our program offerings in Hapkido, Yoga, Tai Chi, Weapons and Archery. I want to thank everyone for your continued effort and support.

COVID has impacted all of us. That is why, last March, Enso Center implemented a policy that all tuition is a donation. We plan to continue this policy into 2021. We are so grateful to everyone who continues to support us through their recurring payments during this time. However, everyone is welcome in class. Please join us whether you are making a donation or not. Due to limited space and costs Summer Camps will not be covered by this policy..

I am very excited to be getting back to normal. I have been vaccinated and can't wait to throw, be thrown, do patterns, stretch, work out, wield a wooden weapon and train together with everyone once again. We will expand and create programs as regulations and medical information guide us to do so.

Even with the great enthusiasm and hard work we have seen this year, 2020 and COVID have reduced our earnings considerably. In order to maintain our programs and offerings please donate as you can and if you have an employer who offers donation matching please let them know. We also have a new Free Little Public Pantry please take what you need and leave what you can of nonperishable items.

I can't thank everyone enough. In a time when many schools are forced to close we are still going. I am so excited to see you all soon.
