PLANNING AND PREPARING
Tuesday, June 14, 10:00 a.m. – 12:00 p.m.

A great program starts with a great plan. This session will first ask the question: what makes a great program? We will hear directly from young people what they look for in a summer experience, explore tools and strategies for components of a great program day, and dive into some planning tools and resources available for instructors. Time is precious, so instructors will also receive in-session curriculum and planning work time in which they can collaborate with peer instructors. Finally, instructors will share resources with one another for recruiting and enrolling successfully for a full program.

Presenter Bio: This session will be presented by Emily Nott of the ASM Professional Development team in partnership with Instructor Mentors from throughout the organization. Emily Nott has been in out of school time education for over a decade as a teaching artist, teacher educator, curriculum developer, and administrator. She has an M.Ed in Instructional Leadership from UIC and is the Director of Learning Communities at After School Matters. Session will feature breakouts with Dawn Marie Galtieri of Voice of the City, youth development leader Maranielly Vazquez, and other exemplar After School Matters instructors!

CULTIVATING JOY
Thursday, June 16, 10:00 a.m. – 12:00 p.m.

Teens and youth workers alike face a paradigm-shifting question: what does it look like to come back? To come back in person, to come back together, to come back to community—for all of these, we need to cultivate and nurture joy and play. All work and no play leaves teens with a dull day! What type of energy do we want teens to feel when they enter and leave our programs? Let’s re-connect to our inner child, let’s pull out our favorite check-in questions, community builders, energizers, and reflection activities. Let’s play! Together, participants will re-connect to fun in-person activities that cultivate joy and laughter, work with mentor instructors in a range of best practices for community builders, and activities.

Presenter Bio: This session will be presented by David Gauna of the ASM Professional Development team in partnership with Instructor Mentors from throughout the organization. David is an artist, youth educator, and community activist in Chicago and is the Professional Development Specialist at After School Matters.

BECOMING ALLIES TO TRANS YOUTH
Tuesday, June 28, 4:00 – 6:00 p.m.

What does allyship to trans youth look like during these difficult times where anti-trans bills are being passed in legislation across the country? How can we show up for our nonbinary, gender nonconforming, and trans youth within our programs in ways that affirm their identity? Why is it important to recognize the systems of power that contribute to Trans violence? Participants in this session will explore examples of different gender, sex, and sexual identities and will have a greater understanding of the social constructions that impact the creation of these various identities. Recommended for Veteran Instructors! Building on the Restorative Justice work we have been doing in professional development over the last 2 years, this session will examine how Restorative practice looks in program spaces. How can we return to these practices, even in the challenging moments? How do we continually encourage healing, forgiveness, and reconciliation in our work with young people? How can we promote these practices amongst youth in the heart of our communities dealing with so much conflict? In this workshop participants will learn to incorporate methods to encourage community and reconciliation.

COMMUNITY CARE HOUR

**Thursday, June 30, 4:00 – 6:00 p.m.**

Summer programming can be a dense time for the youth development community. How are we taking care of ourselves to ensure we are not pouring from an empty cup? Before we start programs in July, let’s come together to re-focus on self and community care with a series of activities designed to support your self-care throughout the summer. Self-care is an everyday journey and learning experience, so let’s convene to share and learn from one another about our self care journeys and to participate in various activities led by mentor instructors in self-love practices that not only professional adults can use, but that we can use with our teens too. Past activities have included movement, meditation, arts therapy, hip hop, and home plant care. This session will be collaboratively designed and presented by ASM instructors, for ASM instructors.

DESIGN PROCESS:
This PD Plan was designed based on instructor input, teen input, staff input, and in consultation with local OST adult education partners to incorporate themes and best practices from the field.

- In the instructor surveys, top requested areas based on Summer 2021 surveys were (in order) Mental Health, Tools for Engagement, Trauma and Healing, Building Relationships, Anti-Racism, Self and Community Care, and time to work with instructors in my content area.
- About 90% of instructors expressed they preferred for ASM PD options to remain largely online for Summer 2022.
- In exit slips, instructors asked for more time to connect with one another, more opportunities to hear directly from young people about program practices, and opportunities to explore restorative practice. Instructors also specifically asked for a session on disability justice and supporting LGBTQ+ youth in their exit slip feedback.
- In branch dialogues, staff asked for continued supports for instructor mental health and self care.
