

# 30<sup>th</sup> Sea Otter Classic - 2021

---

## **Volunteer Communication Support INCIDENT/EVENT ACTION PLAN**

**OPERATIONAL PERIOD 10/07-10/2020 @ 0600-1930**

UPDATED DRAFT VERSION - 01/25/2021

UPDATE / SUPPLIMENTS MAY BE ADDED AT EVENT TIME  
ASSIGNMENTS WILL SHIFT AS CONDITIONS CHANGE

<b>INCIDENT OBJECTIVES</b>	1. Incident Name	2. Date	3. Time
4. Operational Period	Sea Otter Classic 2021	1/25/2021	10:32
Date: 10/07/2021 - 10/10/2021 Time: 0600 - 1800			
<p>5. General Control Objectives for the Incident (include alternatives)</p> <ul style="list-style-type: none"> <li>• Amateur radio operators will primarily be “Back Country” communicators entrusted with reporting medical emergencies, logistics, and health and welfare traffic throughout the course in coordination with the SCRAMP fire/medical dispatchers. In addition on Saturday, ham operators will support communications for the Carmel Valley Route of the Gran Fondo.</li> <li>• Observe and report potential or existing hazards to net control.</li> </ul>			
<p>6. Weather Forecast for the Period</p> <p>Most current at the time of this printing the Weather Forecast is attached. - Subject to change</p>			
<p>7. General Safety Message</p> <p>Amateur radio communicators should stay out of the riding path placing their vehicle as far away from the riding path as possible to avoid collisions. The best possible parking space is either well behind the riders if they are entering the roadway or if they will be in your path at a "feed zone," park down the road and past where they will be turning. If parking down hill, the vehicle should be placed 3-4 car lengths down the road, but not in the directions the riders will be turning.</p> <p>Radio amateurs in the vicinity of marshal points should stay well away from the cyclist path and be alert for riders that might suddenly lose control.</p> <p>When exiting the “BLM Public Lands” be especially watchful for stray and recreational bicyclists, occasional horses and range sheep, and yield the “right-of-way” to any. Do NOT stray into the “bush.” There is possible unstable military explosive ordnance (artillery shells, ammunition, hand grenades, etc.) even in the non-posted areas, but most of these areas are posted. Also, native poison oak flourishes along with <u>ticks</u>, some as small as a pin head. Native plants should not be trampled, and some are recovering or delicate. Over 44 different species of endangered and rare plants and animals live here on the Fort Ord Public Lands (FOPL). Some areas are posted “Native Plant Preserve.” Thanks for your cooperation. Snakes have been spotted in the past as well, so stay alert!</p>			
<p>8. Attachments</p> <ul style="list-style-type: none"> <li>• ICS 203</li> <li>• ICS 204 (4)</li> <li>• ICS 205 Communications Plan</li> <li>• ICS 206 Medical Plan</li> <li>• Incident Map</li> <li>• Weather Forecast (included after 4/12/2020)</li> <li>• ICS-214 Incident Log</li> </ul>

Prepared By (Communications Unit) <b>Timothy S. Takeuchi - COM-L (T) - W6TST (831) 245-7895</b>						Repeater Location: Laguna Seca SCRA County: Monterey; State: CA			USNG: 10S FF 11864 50216 36°35.45243'N, 121°44.96762'W		

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.
