# About Us

---

Janet Michelle dot com is a digital platform founded by Janet Michelle in 2015. It's a place for sharing stories, lessons, empowerment, education, discussing politics and encouraging wellness. In 2018 the Janet Michelle Podcast was launched.

As the platform grows, so will the voices and stories of many other women. Janet Michelle firmly believes that as women, our voices matter, our stories are relevant, and that one should never dim their light to appease the insecurities of others.
