

GREENSBURG
FOR YOUTH DEVELOPMENT®
FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY

Dear Child Development Families,

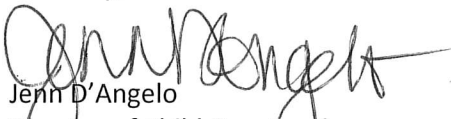

As you know there is much uncertainty right now surrounding the COVID-19 virus. The Greensburg Y is diligently working to monitor any communications from the CDC, the PA Department of Health, the Department of Human Services, our local school districts and our various levels of government. We have met as a management team and are able to communicate the following as of March 13, 2020:

- We are continuing with our regular hours of operations at all BASE locations, in the Early Childhood Learning Center and at Child Watch.
- In the event that our partnering school districts discontinue the presence of us in their buildings, BASE will then be closed with no KDO offerings.
- If our licensing agency or higher stipulate that DHS licensed programming must close, then ECLC and BASE will be closed.
- Billing for BASE and/or ECLC will be suspended if and when the programs are closed.
- We are cancelling any larger Y events that may pull together a mass crowd as recommended by the Governor.
- Regular Y membership usage, youth programming, group exercise and the like will continue as usual at this time.

As this situation is quite fluid, we will continue to monitor the recommendations from all agencies listed above in addition to the YMCA of the USA. Our goal, as always, is to keep our children, our families and our staff at the center of all we do. The mission right now is to find the balance of reliability and safety for all.

Please ensure you are signed up for our REMIND text alerts and that you are checking your e-mail as we will continue to communicate to all our program participants through those formats.

Sincerely,

Jenn D'Angelo
Director of Child Care Services
