Job Overview

We are currently seeking a **Machinist** to join our growing team. In this position you will assist in custom production needs, specifically on CNC machines. Will be responsible for machining parts to specifications, but also adaptable to work in other areas as needed.

Responsibilities:

- Operating manual mills (small and large) and CNC milling machines
- Machining of carbon, stainless, or aluminum
- Reading from blueprints to machine correct pieces
- Use of hand and power tools
- Understand and practice safety procedures
- Flexibility to assist in other areas of the shop as needed

Qualifications:

- High school diploma/GED is required
- 3 years prior combined experience in manual and CNC machining
- Understand machining setups for vertical and horizontal machines
- Ability to read blueprints and understanding how the final product should look
- Must possess troubleshooting skills. Should be able to see flaws or corrections that need made
- Must be able to use measuring devices including rulers, calipers, micrometers, and tape measures
- Must be able to provide own machining equipment/tools after starting
- Must be able and willing to work overtime as needed
- Certifications or schooling is a plus, but is not required
- Excellent attention to detail. Job requires being careful about detail and thorough in completing work tasks.
- Excellent communication skills and ability to work with team and independently

Benefits:

- Competitive Salary
- Medical/Dental/Vision
- Dollar for dollar matched 401K Safe Harbor plan
- Short/Long Term Disability available
- Company paid life insurance and voluntary life insurance
- Many voluntary benefits available, including Accident Insurance, Critical Illness Insurance, Group Legal Services, Identity Theft, and Pet Insurance
- Formal and on the job training
- Employee purchase program
- Paid Holidays
- Paid Time Off
- Year-end bonus
