Re; Exhibition Park Lethbridge redevelopment

The opportunity to redevelop the Exhibition Park Lethbridge site has presented itself recently and I would like to offer our full support.

Our company can see the economic impact that that the Exhibition Park Lethbridge has on the city of Lethbridge with food and beverage, lodging, transportation and retail business as well as our publication businesses with the supplements that are featured in our AdViser several times each year. These events allow the community to come together and showcase what the buyer and sellers have to offer each year.

The success of several communities our size can be seen when the city and Exhibition organizations come together to promote our city and bring bigger and better events in for the enjoyment of all.

Sincerely,

Jeff Sarich  
General Manager, Farm Press Ltd
