RE: Support of Exhibition Park

Dear Mayor Dodic and City Council,

We wish to advise you that Gas King Oil Co Ltd supports the development project at Exhibition Park and encourages City Council to also provide their support.

Our company feels that this development will allow our city to attract conventions, tradeshow and other events not currently coming to Lethbridge. With these types of events not coming here we are missing the positive economic benefits that more visitors to our area are sure to bring. Also the social and cultural benefits that an improved Exhibition Park would provide are needed. Not just for our industry, but for the City as a whole.

Gas King has been a proud corporate sponsor of Exhibition Park for over 10 years and knows firsthand the benefits of Exhibition Park programming.

We look forward to your support on this project.

Yours truly,  
Gas King Oil Co. Ltd.
