BUILD•A•DRONE Quick Start Guide

We hope you enjoy your purchase of the Build•A•Drone, use this Quick Guide to get your drone off the ground and in flight! If you are new to flying drones we suggest reading the full User Manual included in your package before getting started.

Battery Notes: Please use 3 new AA batteries and insert them into the remote controller. The lithium battery in the drone will be partially charged out of the box.

Pair Your Drone

Please Note: Before every flight, the drone will have to be paired to the remote controller.

Step 1 Connect the battery wires on the drone together, if not already connected.

Step 2 In the center of the remote control is the red power button, press it once to turn ON. The control's LED will blink twice then turn a solid red. The drone's lights will be blinking continuously as well.

Step 3 Move the left stick on the controller, the throttle stick, UP and then DOWN. The drone's lights will stop blinking, ensuring the drone has been paired.

Fly Your Drone

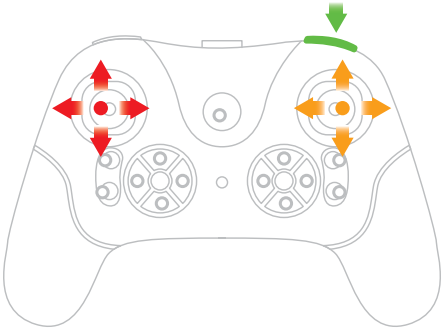
Ascending: Ease the left throttle stick upwards to make the Build•A•Drone go higher in altitude.

Descending: Ease the left throttle stick downwards to lower the Build•A•Drone.

Forward Backward: Ease the right throttle stick up and down to make the Build•A•Drone go forward and backward.

Strafing: Push the right directional stick left or right to turn the Build•A•Drone in a specific direction.

Turning: Press and hold the left throttle stick left or right and the Build•A•Drone will rotate in that direction.



360° Flips: Press the top right button, the remote will beep, and the drone will flip in the direction you have chosen. While hovering in mid-air, choose the direction of the flip by pressing the right throttle stick left or right.

Landing: Gently ease the left throttle stick downward until landing on the ground. You do not want to do this too quickly as to avoid breaking the drone.

If you have any issues, contact us before returning your product to the dealer/store. We will be glad to help you in any way possible. Tel. 305-933-4480
