

Through a partnership with TEA and Renaissance, students and families have free access to thousands of myON digital books and daily news articles during the summer months.

myON reading resources can be accessed on any digital device that is connected to the Internet and are available 24/7. Digital books can be downloaded onto mobile devices for offline reading, as well.

This access will help students continue reading and learning—and provide additional opportunities to explore topics they are interested in. Families can read with myON, too!
