ANALYZE YOUR RESULTS

If you checked:

- **1-2 boxes:** Start working on your hormonal health now, it's easier to make changes before significant imbalances arise.
- **3-5 boxes:** You may be feeling signs related to hormone imbalance. If you are uncertain, consult your doctor and ask to be tested. Adopt a healthy lifestyle and learn how to manage symptoms.
- **6 + boxes:** You may be feeling severe signs that can be helped. Consult your doctor immediately to confirm these signs are related to hormone imbalance or another condition. Ask your doctor to test your sex hormones and thyroid hormones. It may be beneficial to check stress hormones like cortisol too!

We've been told that uncomfortable symptoms are just a normal part of "being a woman." While many of these signs are common, they are not necessarily normal. You can take control of your hormone health, ask me how.

This quiz is not intended to diagnose. The intent of this quiz is to raise awareness of hormonal imbalance, so you can be informed and empowered.

Here's to your hormone health!

xoxo
