

DNA SCRIPT COOKIES POLICY

I. What are cookies?

Cookies are small amounts of data which your web browser stores on your device at the request of certain websites. Cookies are then sent back to the originating web domain on your subsequent visits to that domain. Most web pages contain elements from multiple web domains so when you visit the website, your browser may receive cookies from several sources.

Cookies enable a website to recognize a user's device. Cookies allow you to navigate between pages efficiently, remember preferences, and generally improve the user experience. They can also be used to tailor advertising to your interests through tracking your browsing across websites.

There are two primary types of cookies that DNA Script uses: session cookies and persistent cookies. Session cookies are deleted automatically when you close your browser, and persistent cookies remain on your device after the browser is closed (for example, to remember your user preferences when you later return to the site). Each cookie typically falls into one of several categories, described below.

II. What types of cookies does DNA Script use?

We describe the categories of cookies DNA Script and its contractors use below.

A. Strictly necessary cookies

These cookies are essential to enable you to move around the website and use its features. Without these cookies, services you request (such as navigating between pages) cannot be provided.

B. Performance cookies

DNA Script uses performance cookies to analyze how our visitors use our website and to monitor website performance. This allows us to provide a high-quality experience by customizing our offering and quickly identifying and fixing any issues that arise. For example, we might use performance cookies to keep track of site and page statistics and efficiency (e.g., error monitoring).

C. Website functionality cookies

DNA Script uses these cookies to provide you with certain functionality when you visit our website. For example, these cookies store choices you make (such as your username, language or the region you are in), recognize the platform from which you access the site, and provide enhanced and more

personal features. These cookies are not used to track your browsing on other sites.

III. Disabling Cookies

You can manage cookies through the cookie banner on our website(s). Alternatively, if you do not agree to our use of cookies that are not strictly necessary, you may disable them by following the instructions for your browser as explained at <http://www.allaboutcookies.org/manage-cookies/>.

Please note that some of our web services may not function properly if cookies are disabled. You may also opt out of third-party cookies where available, as detailed in the links below. You can choose at any time which cookies you want to function on our website in the following ways:

- Chrome: <https://support.google.com/chrome/answer/95647?hl=en>
- Explorer: <http://windows.microsoft.com/en-us/windows7/how-to-manage-cookies-in-internet-explorer-9>
- Firefox: <https://support.mozilla.org/en-US/kb/enable-and-disable-cookies-website-preferences>
- Safari: <http://support.apple.com/kb/ph5042>

Other third-party tools are available online that enable users to detect the cookies on each website that you visit and to disable them.

You may withdraw your consent to the use of the cookies at any time by contacting us (see [Contact Us](#) below).

IV. Cookies policy does not cover third party websites

Please note that this cookies policy does not apply to, and we are not responsible for, the cookie practices of third-party websites that may be linked to our websites.

V. Changes to our cookies policy

We may update this cookies policy, and we encourage you to review the policy from time to time to stay informed of how we are using cookies.
