

## SUMMAR SALAH

With 20 years of experience working as a fashion stylist with top commercial, editorial, and print clients, Summar Salah brings passion and a high level of expertise to the market. Her client list includes Adidas, Mercedes Benz, Visa, Reliant, Toyota, Russell Athletics, Procter & Gamble, Southern Living Magazine, and People Magazine to name a few. Some of her most recent clients include Reebok, Shell, Thomson Hotels, Beats, Gatorade Vet Life, Nickelodeon, and Weddings in Houston.

One of her most recent projects is a fashion editorial for CKW Luxe. This fashion story features child models dressed as woodland fairies in an ethereal pictorial. The talented Miles David and the floral wreaths and crowns by Dream Bouquet provided dresses. This project was one that Summar truly enjoyed as she works with children on shoots quite often. She also loves collaborating with different fashion designers, helping to bring their vision to life.

Summar's interest in art and fashion began at an early age. As a child she would find herself devouring fashion magazines from around the world. This set the foundation for her keen eye for fashion esthetics. Later on she found herself traveling to several countries, which exposed her to global fashion. During this time she grew inspired by the beauty, color, textures, and styles of global fashion. To this day, she brings an international flair to her work.

Summar's work in Houston varies from fashion to bridal, sports, corporate, and much more. She has had the pleasure of working with a wide array of athletes and local celebrities, like Chuck Norris. She has also worked with Debbie Porter for many years and feels fortunate to have grown up in Houston with so many talented people. When not in Houston, Summar has the pleasure of working in other great locations like Playa Del Carmen, and Killeen, Texas.

Regardless of where work takes her, Summar's heart lies in Houston. She has always been a devoted cheerleader for the city and considers it to be a true jewel. She notices with pride, how impressed visitors are with Houston's qualities as a city, the quality of the people and of the work as well. She absolutely loves the location that was used for this recent shoot as it reflects the beauty and style of Houston so well. She also had a blast picking some fantastic swimsuits for the story and pulling the shoot together. Summar loves Houston and what she does for a living, and this love is always evident in her work.
