

Rapid Deployment and Scaling Networks

Peach Mata

EHR Project Manager
Providence Administrative Consulting Group

The Challenge

“When we acquire buildings, we need the network and EHR systems to be deployed and quickly popped up for transition. The majority of the time, communication from one team to another is crucial, but not guaranteed.”

The Solution

“The FIT Solutions team has rapid deployment, and prepares our networks to scale with our fast growth—even when we have multiple acquisitions at the same time. They are professionals and the experts.”

Communication

Rapid Deployment

Scaled Growth
