Contactless Infrared Thermometer

Fast & Accurate Readings | Forehead Temperature Measurement | FDA Cleared | TF02

FEATURES

German Made High Precision Infrared Sensor

The TF02 measures temperature by using German made high precision contactless infrared sensor technology. This allows you to safely use the thermometer and significantly reduce the risk of virus spread.

Fast & Accurate Measurement

TF02 is fast and accurate. Measurement accuracy is controlled at ± 0.2 °F.

High Definition Display

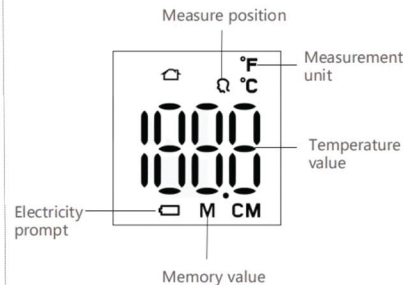

The TF02 has an easy to read HD LED display.

Straightforward Operation

The TF02 supports one-key temperature measurement. It will quickly measure the temperature within one second. Automatically shuts down when not operated within 60-seconds.
