

General Purpose Respirator Mask

CE Approved | FFP2 Certified | KN95
Certified | Industrial Use | MR01

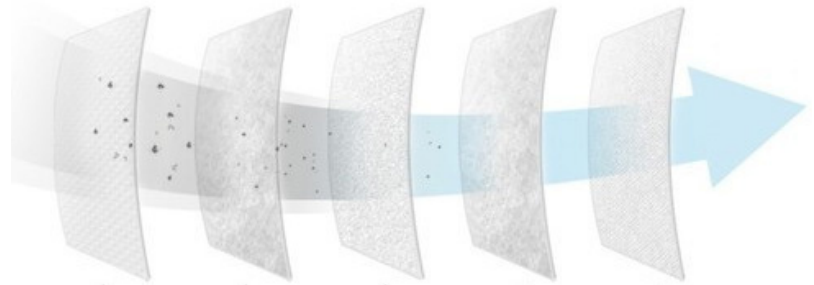

Make breathing easier and
safety more comfortable.

FIVE-LAYER FILTRATION TECHNOLOGY

FILTRATION EFFICIENCY GREATER THAN 95%

1. PP Non-Woven Fabric
2. Stage one 95% filtration Electrostatic meltblown material.
3. Support Layer. Soft fabric
4. Stage two 95% filtration, electrostatic meltblown material.
5. Soft absorbent, anti-bacterial, non-woven fabric.

DESCRIPTION

If worn properly, a respirator mask is meant to help block large-particle droplets, splashes, sprays, or splatter that may contain germs (viruses and bacteria), keeping it from reaching your mouth and nose. Masks may also help reduce exposure of your saliva and respiratory secretions to others.

Executive Standard: EN

149:2001 + A1: 2009

Grade: FFP2

Manufacture Date: Refer to the certification label.

KEY FEATURES

- Single use only
- Industrial use
- Tight-fitting
- Fluid Resistance
- Adjustable Aluminium nose clip for better fit.
- Lightweight construction promotes greater worker acceptance and may help increase wear time.
- Stapled headbands
- Filters out at least 95% of airborne particles including large and small particles.

HIGHLIGHTS

The MR01 mask is a respiratory protective device designed to achieve a very close facial fit and very efficient filtration of airborne particles. Reduces wearer's exposure to particles including small particle aerosols and large droplets (only non-oil aerosols).

PACKAGING

5 pieces per bag.

1000 pieces per box.

CARTON SIZE

21 in x 16 in x 16 in

7kg/box
