

ZACHARY COMMUNITY SCHOOL DISTRICT

REMEDIATION

The Zachary Community School District is dedicated to providing academic and behavioral intervention and support to ensure all students develop the skills needed to be successful.

Elementary Schools: Reading and Mathematics Interventionists

What is RTI?

RTI is a process that provides high-quality research based instruction and interventions that are matched to students' academic and behavioral needs based on universal screening.

What is the purpose of RTI?

The purpose is to address students' learning difficulties by focusing on how schools identify and respond to students' academic/behavior difficulties by using a problem solving, multi-tiered intervention strategy.

Tier 3 - Specialized Instruction

Tier 2 - Targeted Instruction

Tier 1 - Core Instruction

What are the potential benefits of RTI?

One of the strongest benefits of an RTI approach is that it eliminates a "wait to fail" situation because students get assistance at their level of need promptly within the general education setting.

Each school has a RTI team. The purpose of the team is to assist the teacher. The team suggests additional strategies if needed and/or determines if the student needs to be placed in one of the tiers based on results of progress monitoring.

Middle School: Reading and Mathematics Labs

- *Build up basic skills and number sense*
- *Based on student assessment data*
- *Double dose of math and/or ELA*

Summer School

- *K-8th Grade Remediation*
- *K-3rd Grade Title I Summer Instructional Program*
- *High School Credit Recovery*
- *Extended School Year (ESY) for students with disabilities*

Academic Support

- *Elementary In-School Tutoring*
- *High School Core Academic Tutoring*
