March 30, 2020

We have kept all our locations open due to the essential nature of the work of our customers that includes utilities, emergency medical services and law enforcement. Within guidelines provided by each jurisdiction, we have submitted notification we have classified ourselves as an essential business.

Staffing has increased, responding to customer requirements. To-date there have not been any significant supply chain disruptions.

Each location is cleaned and sanitized daily focusing on frequent common touch points, such as door handles. Daily huddles with all our employees reinforce CDC guidelines to protect themselves and their families. Any employees who considered at risk, needs to care for a sick family member or feels ill, are encouraged to remain home. There has not been any reported COVID-19 illness by any of our employees.

We are proud of the active engagement of all our employees working to support our customers, doing their part to stem the spread of the virus and remaining calm with all the media distraction.

Michael Topa
