## PRODUCT DESCRIPTION

A concentrated blend of surfactants, water softening agents and builders. Solutions will effectively breakdown grease, grime, corrosion and soil. It is particularly suitable for oil rigs and other related cleaning jobs. It can be used through pressure washers or it can be applied by hand. Surfaces will rinse free with no film or residue left. Product can be used for all your oil field needs.

## APPLICATION

The usage and concentration can vary depending on the job. For light cleaning, dilute product 1 part product to 50 parts water. General Machinery: Dilute 25 parts water to 1 part rig wash, depending on parts to be cleaned. Rig Wash: Normal dilution would be 1 part of product to 10 parts of water, however dilution may be as high as 50 to 1 depending on specific needs.
