

# HAND SANITIZER GEL

## FEATURES & BENEFITS

- Helps prevent the spread of infectious diseases
- Alcohol-Based Gel
- Contains humectant moisturizer to keep skin hydrated
- Evaporates Quickly
- Can be used anytime and anywhere
- For use when you don't have ready access to soap and water

## PRODUCT DESCRIPTION

**ASHBURN HAND SANITIZER GEL** is an alcohol-based gel hand sanitizer that evaporates quickly. It is recommended for repeated use to help decrease bacteria on the skin.

Active Ingredient: Ethyl Alcohol 71% v/v

## DIRECTIONS

Apply a "palmful" to one hand - enough to thoroughly cover both hands. Spread on both hands including front and back of hands, thumbs and fingers. Rub hands together briskly until dry.
