

Mike-O-Lube 600

Features & Benefits

- Works Well on Aluminum
- Excellent Lubricity
- Medium-Duty Applications
- Non-Staining During Post Heat Treating of Nonferrous Metals
- Strong Boundary Film Lubrication
- Low Vapor Pressure & Non-Objectionable Odor

Medium-Duty Non-Staining Cutting Lubricant

PRODUCT DESCRIPTION

Mike-O-Lube 600 is a medium-duty fluid for machining nonferrous materials. This product provides excellent lubrication. **Mike-O-Lube 600** increases tool life and reduces wear. Use for medium-duty milling, tapping, drilling, punching and sawing of nonferrous metals. It will not stain during post heat treating of nonferrous metals, however, always test on scrap parts first.

Mike-O-Lube 500 does not contain nitrates, chlorine, sulfur, phenols, molybdenum compounds or graphite. It contains no solvent and is considered a low VOC lubricant. Its performance, pleasant metalworking environment and operator acceptance are beneficial over flood coolant systems.

APPLICATION

Use full strength. Do not dilute. Can be used with all micro-lubricant applicators.

TYPICAL ANALYSIS

APPEARANCE:Blue Viscous Fluid
 ACTIVE SULFUR:None
 TOTAL CHLORINE:.....None
 SILICONES:None
 MINERAL OIL:.....None
 WATER SOLUBILITY:.....Insoluble

PACKAGING

E-0600-01 1 Gallon (4/Case)
 E-0600-05 5 Gallon

NOTES

- Use Ashburn Machine Cleaner for quick and thorough pre-cleaning of machine tools and coolant systems.
- Consult Ashburn prior to use on metals or applications not recommended.
- Unless recommended by Ashburn, this product should not be mixed with metal working fluid additives.
