**FOR IMMEDIATE RELEASE**

Rapha Wellness Center Opens in Bayonne Mayor to Cut Ribbon for Holistic Therapy & Healing Center Grand Opening.

Bayonne, N.J. (March 2019) – Adults and children in the Gateway Region who suffer from chronic pain or behavioral, physical or occupational conditions have a new place for healing that goes deeper than any one therapy or approach.

Rapha Wellness Center is a new, 4,500-square-foot adult and pediatric physical therapy and healing wellness center in Bayonne founded by Dr. Rimoun Hann, Doctor of Physical Therapy. Its professional staff offers physical therapy, acupuncture, chiropractic care, cryotherapy, weight management, medical and sports massage, and sauna therapy.

“Rapha” is a Biblical word meaning “to heal” or “make healthful.”

Bayonne Mayor James M. Davis will preside at a ribbon cutting for Rapha Wellness Center’s grand opening at 2 p.m. on March 29, 2019. The event is free and open to the public. Dr. Hanna has been practicing in the Bayonne area since 2010, treating patients suffering from acute and chronic pain due to orthopedic and neurologic conditions and sports-related injuries. In 2013, he founded the Ignite Physical Therapy & Wellness Center in Bayonne.

Dr. Hanna said Rapha Wellness Center is a unique facility where leading physical therapists, occupational therapists, acupuncturists, a chiropractor, and a dietitian work together to provide patients every type of scientifically proven treatment they need in one place. In many cases, several different factors contribute to pain and mobility issues, from injury, illness, and surgery to aging or a change in weight. Rapha Wellness Center offers multiple forms of therapy to address all of them with the right therapy at the right time to ensure an effective recovery.

“We heal patients’ bodies from the inside out with physical therapy and treatments that help them live more active and fulfilling lives,” Dr. Hanna said, “No single therapy is effective in treating every type of pain and dysfunction. We pull it all together for lasting results.”

Rapha Wellness Center’s adult services focus on alleviating chronic pain by addressing all contributing factors. For children ages 12 months and above, meanwhile, the center offers compassionate, specialized pediatric physical, occupational, speech, and sensory integration therapies. The facility also is designed to provide kids a welcoming, positive environment that includes a state-of-the-art sensory integrative therapy gym where they can grow and heal free of competition or constraints.

Rapha Wellness Center offers free consultations. Patients can schedule appointments or get more information by calling 888-NJ-RAPHA or 201-455-6691, sending an email to [hello@raphawellness.com](mailto:hello@raphawellness.com), or visiting the center’s website, [raphawellness.com](http://raphawellness.com).
