Seminar 2021 – Virtual Info

The HAABC has worked hard to ensure that we are able to offer a virtual seminar that will provide valuable information and training to our membership.

We are excited to provide the opportunity to our members to learn, train and network from the comfort of your home or office.

How will this work? Most in BC have seen at least some of Dr. Henry's updates, recall the ones where she provides modelling, a presentation on one side of the screen with presenter beside it.

The HAABC secured a highly recommended AV company that specialized in live streaming and has their own platform that will be tailored to HAABC needs. They have tips and tricks for our remote locations that have issues with internet stability.

The HAABC is excited to reach members that have not been able to attend because of staffing issues and or the cost of travel.

Each registrant will receive a link to the Seminar landing page and a package of written documents from the HAABC.

Port of Calls – 3 min and this can be pre-recorded (those with unstable internet will want to consider this), in written form or live.

Understanding that full multi-day virtual sessions can be too much the HAABC Seminar will be 4 days over a 2-week period. We have come up with a group rate, this will allow HA's to offer the sessions to multiple employees or directors. Please note, registration is per person, links are per person.

HAABC and SCH has teamed up to ensure we have a handful of door prizes to draw daily. You must be online to win and we will be happy to mail that out.

We have included daily icebreakers and/or social breaks to spice things up a bit and include a bit of fun, amongst a packed agenda.

Please write legibly on the registration form to ensure the A/V company gets the correct names and email.

Deadline for Registration is January 31st, firm. Take advantage of the early bird rate by registering before January 15th.
