

## Embassy Suites by Hilton Marks Grand Opening in NYC

BY HOTEL BUSINESS ON APRIL 12, 2018

NEW YORK, NY—The Buccini/Pollin Group, Hidrock Properties and Embassy Suites by Hilton celebrated the opening of the 310-room Embassy Suites by Hilton New York Midtown Manhattan with a ribbon cutting, which was officiated by key officials from Embassy Suites by Hilton and development teams.

The New York hotel officially opened its doors to the public shortly after New Year's Day. The 40-story hotel was transformed into an English Garden with floral arrangements, rosé tasting stations, a cotton candy machine and a St-Germain cart.

Managed by PM Hotel Group, it is the only Embassy Suites by Hilton in all of Manhattan. Champion Platt Interiors was selected to design the hotel's public areas, while HVS Design was responsible for the guest suite and corridor designs.

Accommodations include studio suites, many featuring semi-private living areas with full-size sleeper sofa, balconies and city views. All guestrooms provide complimentary WiFi, large format HDTV, expansive work surface, refrigerator, microwave, and coffeemaker, as well as luxury bath amenities.

The hotel offers several food and beverage options, including SkyLawn Bar & Social for handcrafted cocktails; the Heist Bar & Lounge for Italian fare and chef-led concepts; and the Embassy Lounge for complimentary, made-to-order breakfast. The SkyLawn is available for events.

The hotel's contemporary design was developed with local influences and was inspired by New York City's Fashion District. Inside, there are jeweled aesthetics, rich textures, vibrant color tones and a collection of vintage Barbie dolls and fashion books.

The hotel is accessible to Times Square, the Empire State Building and Fifth Ave. shopping, as well as Penn Station and Grand Central Terminal.
